October 28-31, 2003

Tuesday, October 28, 2003

Overview of the Kentucky OSH Program.....8:30 AM-11:30AM (Course #127)

This session discusses the obligation to provide a safe and healthy workplace, free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, safety and health topics currently being considered for future standards and policies.

Accident Investigation.....1:00 PM-4:00 PM (Course #102)

This course provides information on accident investigation techniques and methods. Topics include evidence collection and evaluation, interview techniques and documentation. Techniques for determining root causes of accidents and Job Safety Analysis will be covered as well as a brief Overview of Behavior Based Safety. Practical exercises are used to support class information.

Wednesday, October 29, 2003

Injury and Illness Recordkeeping Requirements.....8:30AM-11:30AM (Course #401)

This session is for those persons responsible for maintaining the revised injury and illness records. The forms 300, 301 and 300A will be covered. The regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting.

Introduction to Ergonomics.....1:00 PM-4:00 PM (Course #225)

This session will provide participants with an introduction to ergonomics and Cumulative Trauma Disorders (CTD's). Topics of discussion include disorders associated with ergonomic risk factors; the costs of CTD's to employers and employees; and the elements of an effective ergonomics program. Additionally, case studies will be utilized to demonstrate current methods to recognize, evaluate, and control ergonomic problems.

Thursday, October 30, 2003

Fall Protection.....8:30 AM-11:30AM (Course #315)

This course will focus on fall hazards associated with construction sites. Examples of the most common hazards and their applicable standards will be discussed. Major topics will include the correct use of guardrail systems, personal fall arrest systems, restraint systems, and hole covers.

Excavation, Trenching and Shoring.....1:00 PM- 4:00 PM (Course # 306)

This course is designed for those persons engaged in excavation work. It covers OSHA's new requirements in Subpart P of the 1926 standards. Topics include soil classification and instrumentation, shoring techniques, trench boxes, a discussion of competent person, and associated hazards.

Friday, October 31, 2003

Confined Space Entry.....8:30 AM-11:30 AM (Course #205)

This course explains the regulations regarding entry into and working in confined spaces. Topics of discussion include assessment of the confined space environment; entry into continuous system confined spaces, such as sewers; and; entry into closed system confined spaces, such tanks and pits; emergency entry into all confined spaces; and training of employees.

Hazard Communication.....1:00 PM -4:00 PM (Course #208)

This session explains the requirements related to employees' "Right to Know" about the hazards of chemicals, which are used in the workplace. Topics include chemical hazard determination, written hazard communication programs, container labeling, material safety data sheets (MSDS), and employee training programs.

NOTE: Complete one form for each registrant attending class. Photo copies are acceptable. Please submit registration by October 22, 2003. No confirmation of registration will be sent. All courses are COST FREE.
